

# JUNIPER

A hard wax oil finish with a satin hand-feel and light wire brush. Juniper is a desaturated walnut finish with medium color variation. This finish may exhibit purple/red streaks that will fade and mellow over time. Natural grade is available in an 8-inch width and prime in 7 inches. Standard 2 to 10 feet lengths.

\* Wood is a natural material. The availability of specific species, grades and dimensions can vary on a month-to-month basis. For that reason, we cannot guarantee lead times on all products. This is especially true for longer lengths, wider widths, and cleaner grades.
